

Municipality of Dziwnów

for tourist, sailor, sportsman, investor

Welcome

Sea
360°

The Mayor of Dziwnów

Grzegorz Józwiak

I would like to invite to our district, all who love water sports and action but also appreciate friendly, picturesque landscape and peaceful atmosphere. It is an ideal place for active holidaymakers and sailing lovers.

The beach, which Dziwnów is famous for, attracts not only in the summer. The sea is completely different in each season of the year, that is why it is worth to come and see it, especially that autumn and winter walks are very beneficial for our health. The pine forest on the other hand, which is located just behind the dunes can be a perfect place for jogging and Nordic walking lovers.

Our offer includes wide range of accommodation and restaurants, camping sites and new yacht harbours. There are also all-year-round SPAs, sanatoria, rehabilitation centres and hotels. New, only two years old promenade, the bascule bridge on the Dziwna Strait where the beauty of the river can be observed and the fishing port where fresh fish are sold, are the places worthy a note.

Another distinguishing place is the sports and recreation area, with the football pitch, basketball and volleyball courts, as well as the multipurpose sports centre. Based on the facilities, wide range of sports projects are realized both amateur and for competition.

Sports Stars' Festival sets the pace of all the actions and the invited sports representatives (sportsmen, trainers) give the sports character to our town.

Welcome, full ahead to Dziwnów!

The Chairman of the Town Hall

Piotr Sokół

Ladies and Gentlemen,

This promotional brochure constitutes the Municipality of Dziwnów in a nutshell. It will allow you to move to our clean, enchanting, golden beaches. To have a look at sunny promenades and cool pine forests. To dream at the waters of the sea, the river and the bay favourable for active holiday.

Dziwnów, Dziwnówek, Międzywodzie and Łukęcin are towns rich in accommodation and gastronomic variety. Everybody can find here quiet and peaceful corners, as well as places of amusement.

I invite everybody to visit our Municipality of Dziwnów. I would like to encourage to walk along our golden beaches, warm promenades and pine forests, to do water sports and invest in our area.

Let's familiarise with Dziwnów and stay here longer!

www.dziwnow.pl

Municipality of Dziwnów

General information

Municipality of Dziwnów is located in north-western part of West Pomeranian Province. Interestingly situated between the Baltic Sea in the north, the Wrzosowo/Kamieński Bay in the south and the Dziwna Strait which connects the sea with the bay. This kind of location is easily the best advantage of our district and qualifies it as a perfect place for sailors and other water sports lovers.

From the land side surrounded by the forests, in close neighbourhood with Wolinski National Park (Woliński Park Narodowy) creates perfect conditions for people searching for active holiday and healthy coastline walks.

Welcome

Sea
360°

Due to developed infrastructure in the last years (roads, water supply, port) and perfect location, Dziwnów attracts investors. High placing in the investment ranks and much higher standard of living of the inhabitants create a solid foundation for the business development.

More than 3790 ha which constitutes the area of the municipality is inhabited by more than 4000 people. The length of the shoreline of about 18 kilometres demarcates northern borderline.

Municipality of Dziwnów consists of four towns: Dziwnów which gained the charter in 2004, Dziwnówek, Międzywodzie and Łukęcin. Each of them located at the seaside with varied and well-developed accommodation.

In 2006 the beaches of all four towns were qualified by the European Commission as fulfilling the highest sanitary standards. For the last several years the resort has been awarded the Blue Flag Certificate.

Tourist attractions

What differentiates us

Apart from the tourist value, our towns have also health benefits. They can be characterised as typical sanatoria due to high iodine content in the air. Heart and respiratory system diseases treatment can be supported here.

Except for sunny beaches and warm sea, parks and forests await the crowds of tourists. For those eager to have fun and excitement there are various events.

Particularly recommendable place is "Dead Dziwna" ("Martwa Dziwna") which used to be the old, natural estuary of the Dziwna Strait. It is very beautiful and green place with walking and cycling path, where apart from the lake, many protected species of fauna and flora can be found. The one, which specially should be recognised, is the sea holly (Eryngium maritimum) – nature symbol of Dziwnów, placed in our emblem.

Another attraction worth mentioning is the bascule bridge on the Dziwna Strait – one of a few in Europe. It is also recommended to sail the sea and the bay in one of the "pirate ships" moored at the embankment.

Dziwnów
sea all the time

The modern sports centre offers: a solarium, a sauna, a gym and various sports and artistic events. Just next to the sports centre there is Sports Stars' Avenue, where replicas of the greatest Polish sportsmen's medals can be seen.

One of the most important, long-established festivals is connected with this unique place – Sports Stars' Festival. During several days of the festival, Dziwnów becomes a place where it is possible to meet the champions of Polish sport. Numerous tournaments, sports games and also Sports Beauty Contest take place at that time.

Another important summer event is the Greek Day, celebrated to commemorate the Greek refugees who came to Dziwnów in 1949, to be treated in military hospital. Greek music concerts and Greek food tasting are organised at that time.

The credo of our municipality is "an active holiday" and consequently the promotion of healthy life style. We have been trying for many years not only to promote our area as a dreamed place for summer holiday or the region open for investments, but also to emphasize the sports image. It means that sport is very important for us. We do not forget about those doing sport competitively, that is why our sports facilities are developed and intended for everybody.

Worth mentioning is the fact, that due to our location, water sports become more and more popular. In the last several years the necessary infrastructure was built (two marinas and water sports centre). What is more, we successfully organize different kind of regattas (also international).

In conclusion, we prioritise sport in popular and individual form. We cannot forget, that besides the active contestants, also good and well qualified training staff set an example. We try to combine both and want to set a good example to others.

Dziwnów on the route

West Pomeranian
Sailing Route

The presence on the sailing route is very important for our municipality, due to the fact that we became part of a flagship investment in this part of the country. New marinas, developing sailing and other water sports infrastructure, stimulate not only further growth but also promote different kinds of investments.

Thanks to that Dziwnów, as well as other towns of the municipality, become more and more attractive not only to tourists but also to investors.

Water tourism can be not only a part of the region's promotion, but also one pillar of its income. Everybody can see that the sailing route is located in areas of exceptional natural beauty and offers unforgettable views.

Marinas in Dziwnów

The main marina is located in the close neighbourhood to the fishing port. The works finished in October 2013. The new yachts harbour attracted general interest from the very first day, which came of its shape as well as its location on a very important sailing route.

Worth mentioning is the fact, that the marina is enveloped into the land in such a way that it will not be directly affected by the water and currents of the Dziwna.

www.dziwnow.pl

Complementary to the main marina is the summer harbour, built in 2012. It comprises one of the elements of a new sailing infrastructure, based on the European financial support and standards.

Both facilities, thanks to their location and modern architecture, have become important places of the municipality. Moreover, they created conditions conducive to the comprehensive growth of the town and allowed the further development of water tourism.

Water sports in the Municipality of Dziwnów

Since the creation of new marinas, sailors' interest in Dziwnów is exceptionally high.

Sailing that recently has become very trendy and more available, individualizes our municipality, which has been noticed by regatta organizers, sailing federations and water sports lovers.

The regattas organized by our municipality are highly praised for the high organizational standards, good preparation and exceptional atmosphere, which please home and foreign guests as well.

Getting to Dziwnów

Easily reached from the landside and from the sea. The location of the municipality, unique not only in the country but also in Europe, allows the usage of the roads, inland reservoir and sea routes. Appreciated by many, not only as a place of summer holiday but also as a part of the sea adventure.

The seasonal offer is for everybody and active holiday is the core. Those in search of peace and quiet can also find their place here.

Welcome and... full ahead to Dziwnów!!!
